Embedding Service Learning in European Higher Education

Developing a Culture of Civic Engagement

Edited by **Pilar Aramburuzabala**, Universidad Autónoma de Madrid, Spain, **Lorraine McIlrath**, NUI Galway, Ireland and **Héctor Opazo**, Universidad Católica Silva Henríquez, Chile

Developed from the successful EU Erasmus+ funded project 'Europe Engage' this book promotes service-learning as a pedagogical approach that develops civic engagement within higher education. By bringing together a range of universities from across Europe and exploring the idea of the civic university through service-learning, this text presents a contemporary view of service-learning and community engagement. It provides conceptual and practical tools for teaching, researching and practicing service-learning and exposes service-learning as a key approach in terms of embedding a culture of political and civic literacy within higher education.
